#### General Information:

The **KombiBox-2** (KB-2) can also be used in all vehicles where the **KB-1** is listed. As a rule, however, no persons can sit on the rear seat bench when the wheelbase is short.

If there is a **third row of seats** in the vehicle, this must be removed.

**Identical in construction:** <sup>(1)</sup> Fiat Doblo II = Opel Combo D // <sup>(2)</sup> Mercedes Citan = Renault Kangoo II // <sup>(3)</sup> Citroën Berlingo III = Opel Combo E = Peugeot Rifter
